## Denial Notice Presumptive Eligibility (PE) Medicaid Pregnant Women Program

Date: Client Name: Client Mailing Address:
Based on the information you provided, you are not eligible for the Presumptive Eligibility (PE) program because of your household income and family size.
A denial of PE does not mean that you are not eligible for other Medicaid programs.
It is important that you complete a Medicaid Application and submit it to the Wyoming Department of Health Customer Service Center as soon as possible for a complete evaluation of your family's eligibility for Medicaid. The Customer Service Center will notify you of approval or denial for other programs.
